OBJECTIVE

Security researcher with hands-on experience in offensive security and vulnerability assessment. Passionate about web application and network security, with practical exposure through penetration testing and a proven track record in national CTF competitions and community leadership.

EDUCATION

Uttara University

Bachelor of Science, Computer Science and Engineering

Uttara, Dhaka

July 2023 - April 2027

- **Relevant Coursework:** Fundamentals of Programming, Data Communication, Computer Networking, Computer and Cyber Security, Operating Systems, Artificial Intelligence.

TECHNICAL SKILLS

Security Assessment: Vulnerability Assessment, Penetration Testing, Web Application Security, API Testing

Security Tools: Nmap, Metasploit, Burp Suite, OWASP ZAP, Sqlmap, Nuclei, Wpscan, Nessus, Amass

Programming: Python, C/C++, Bash, PowerShell, JavaScript

Systems & Version Control: Linux, Windows, Git, GitHub

CERTIFICATION

- **Certified Network Security Practitioner (CNSP)** - TheSecOps Group
- **Certified Associate Penetration Tester (CAPT)** - Hackviser
- **APIsec Certified Practitioner (ACP)** – APIsec University
- **Certified API Security Analyst (CASA)** – APIsec University

EXPERIENCE

Technical Partner – SMUCT CSE FEST V3 2026

- Served as Technical Partner for a national CTF competition attracting 300+ participants, owning end-to-end server infrastructure and operations for the competition platform.
- Managed participant data and platform security throughout the live event, maintaining uptime and data integrity under concurrent multi-user load.

INDEPENDENT SECURITY RESEARCH

Bug Bounty Research & Vulnerability Discovery

- Identified and documented a valid version-specific CVE vulnerability within a third-party framework asset deployed on the Waitwhile production platform.
- Conducted comprehensive version enumeration and configuration analysis to verify unpatched components under an active Bug Bounty framework.
- Developed a technical Proof-of-Concept (PoC) demonstrating how the software version flaw impacted the platform's infrastructure boundary before duplicate triage closure.

PROJECTS

Rec00x - Domain Analysis Tool (Python)

- Built a CLI tool that integrates Shodan, FOFA, and Wayback Machine APIs to automate domain enumeration, reducing reconnaissance time by ~50%.
- Added multi-threading and HTTP status validation to surface active assets for vulnerability assessment.

LEADERSHIP & VOLUNTEERING

Volunteer – Phoenix Summit 2026

- Supported the event's registration process by managing participant check-in, verifying registrations, and coordinating attendee entry to ensure a smooth, organized, and efficient event experience.

Volunteer – HackerOne BugHunt 2026

- Contributed to smooth participant registration and management, helping ensure efficient event operations and a well-organized experience for all attendees.

Organizing Secretary – CyberCon25, Uttara University

- Contributed to planning, coordination, and execution of the event, ensuring smooth management of technical sessions and CTF activities.
- Managed participant registration, on-site logistics, and operational support to maintain efficient event flow.
- Assisted in guest coordination and overall event management, contributing to a successful and well-organized cybersecurity event experience.

Organizing Secretary – CyberCon24, Uttara University

- Contributed to planning, coordination, and execution of the event, ensuring smooth management of technical sessions and CTF activities.
- Managed participant registration, on-site logistics, and operational support to maintain efficient event flow.

ACHIEVEMENTS

Cybersecurity CTF Competitions

- **13th Place** — HackZero CTF 2026 (International) — 350+ global teams
- **36th Place** — BDSec CTF 2026 (International) — 550+ global teams
- **76th Place** — RIFFHACK CTF 2026 (International) — 1500+ global teams
- **20th Place** — BUP Tech Carnival CTF 2025 (National)
- **22nd Place** — UAP Cyber Siege 2025 (National)
- **24th Place** — World Telecommunication and Information Society Day Hackathon 2025 (National)
